

A topographic map of a region, likely a coastal or mountainous area. The map uses a color gradient to represent elevation, with green and yellow for higher elevations and blue for lower elevations. A prominent white area, possibly a snowfield or a large lake, is located in the center. A network of blue lines represents a river system, with a major river flowing from the top right towards the bottom left. The text "ACKNOWLEDGEMENTS" is centered on the map in a bold, blue font.
