

# 2025 Atlantic Canadian Conference on Energy System Modelling

**Frédéric Côté, MBA,**  
General Manager, Nergica & Canadian Lead for the  
Northeast Grid Planning Forum

A key figure in the development of the Quebec and Canadian renewable energy sector, Frédéric Côté works with decision-makers, SMEs and various national and international events to act as a spokesperson for the industry and promote the full-scale deployment of the energies of tomorrow. A passionate leader and appreciated by his peers, Frédéric Côté has served as General Manager at Nergica since 2009. Fred is also the Canadian Lead for the Northeast Grid Planning Forum since 2023, engaging stakeholders across the Northeast U.S. and Eastern Canada to advance better cross-border planning and integration of the electric grid.
